

**Exploring the Unknown****Position:** Draftsperson**Hours:** Full time**Location:** Head Office - Gladstone

This year, AusProof is celebrating 30 years of innovation, reliability and pedigree in Australia. We are a family-owned company and world leaders in coupler research, development and design since 1974. Our product range of electrical cable couplers and components are used in underground and open-cut coal, metalliferous mines and tunnel excavation projects. Couplers are designed in Australia with all components manufactured in Gladstone.

**About the role**

This position will primarily be responsible for preparing and modifying engineering drawings using AutoDesk Inventor.

**Requirements**

- Minimum 12 months experience with AutoDesk Inventor.
- Use of AutoDesk Vault is preferred but not mandatory.
- Knowledge of Excel or LibreOffice is preferred.
- Great eye for design.
- Strong creative skills in 3D modelling.

This is a full-time position, working 6:00am-3:00pm Monday to Friday with every second Friday off.
